

5 ABSTRACT

The invention relates to new antibiotics designated Cyan-416A, Cyan 416B,  
Cyan-416C, Cyan-416D and Cyan-416E to their production by fermentation of  
10 *Acremonium sp. NRRL 30631* to methods for recovery and concentration from the  
crude solutions, and to a process for purification and to semisynthetic ethers of  
Cyan-416B.
